RE: Termination of RCRA Permit Number CO-04-06-23-01

Dear Mr. Lockhart:

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division (Division) has reviewed your letter dated July 20, 2006 and hereby approves your request to terminate RCRA Permit Number CO-04-06-23-01.

Although it is stated in your letter that "the DOE accepted certification of closure", the Division recognizes that it was the Division that accepted certification of closure for all of the RCRA permitted units in our letter dated November 28, 2005. However, acceptance of closure of the permitted units or termination of the RCRA Permit does not relieve the Department of Energy (DOE) from requirements for post-closure corrective actions associated with releases of hazardous wastes or constituents to the environment. As indicated in your letter, post-closure care will be included in and managed under the Rocky Flats Cleanup Agreement (RFCA) or a successor agreement between DOE, CDPHE and the EPA.

Termination of the permit is a Class 1 modification requiring prior Division approval and notification to all interested parties. As such, please send notification to all interested parties including appropriate units of Federal, State and local governments within 90 days of receipt of this approval letter.

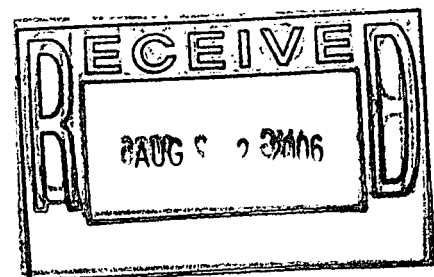

Should you have any questions, please contact me at 303-692-3356, or David Kruchek at 303-692-3328.

Sincerely,

Joe Chieffelin
Manager, Solid & Hazardous Waste Program
